Education

THINKFUL — JAN - MARCH 2016

Front-End in Angular

Written by Matias Niemela, a Google engineer and a core contributor to Angular, the course covered the MVC design pattern, how to wrap APIs in services, and how to extend HTML vocabulary with directives. I gained a thorough overview of the framework while having an industry experts as my mentor.

THE IRON YARD — JAN - MARCH 2015

Front-End Development Bootcamp

Learned web development through a 3 month intensive bootcamp. From HTML and CSS to AngularJS, Firebase, and Git, I learned the latest web development tools and technologies while following an agile & scrum development process.

FED. UNIVERSITY OF ESPIRITO SANTO — 2003 - 2008

Bachelor in Education

Studied the theory of teaching with a focus in physical education. Nominated by my classmates to give the commencement speech at graduation. Valedictorian - GPA 3.83

Experience

DELOITTE DIGITAL — MARCH 2015 - PRESENT

Front-end Solution Developer - Lake Mary, FL

As a Front End Solution Developer at Deloitte Digital, I develop responsive and mobile web applications using HTML5, CSS3 and JavaScript. I use Confluence and Jira for collaboration and Git and Stash (Bitbucket) for version control. I make use of frameworks such as Bootstrap, Materialize, Sass and AngularJS to deliver high quality and timely work to clients.

UNIVERSITY OF CENTRAL FLORIDA — MARCH 2016 - PRESENT

Teaching Assistant - Lake Mary, FL

As a Teaching Assistant at the UCF Full Stack Web Development Coding Boocamp, I help students become full stack developers. During class I assist the students with various web development tools such as Google developer tools, command line interface, and Heroku. I also help them understand web development languages and concepts such as HTML5, CSS3, JavaScript, Git, jQuery, responsive design, Bootstrap, security and session storage, and user authentication. While outside of work, I use Slack and GitHub to review students' code and assist while working remotely.

ORANGE COUNTY PUBLIC SCHOOLS — JAN 2011 - DEC 2014

P.E. Teacher - Orlando, FL

Planned, taught, assessed, and managed classes of 45-65 students with the assistance of a paraprofessional. Evaluated as a Highly Effective teacher. Utilized OCPS applications to plan, grade and organize classes. Collaborated with other P.E. teachers in the Professional Learning Community on a monthly basis and acted as a Team Leader of the Special Areas Teachers.

VARIOUS PRESCHOOLS — AUG 2009 - JAN 2011

Preschool Teacher - Florida & Virginia

Kept the classroom environment fun and energetic for preschool and after-day-school children. Responsible for the supervision, care, and education by following age appropriate curriculum.
